

The background of the slide features a dark, textured surface with vertical lines of light, creating a digital or cybernetic feel. Overlaid on this is a faint, circular pattern of binary code (0s and 1s). In the lower-left quadrant, there is a stylized white globe showing the continents of North and South America. The globe is surrounded by a ring of binary code. The overall aesthetic is high-tech and secure.

# **NSW Government Cyber Security Policy (CSP) ACT NOW!!**

**All NSW State Government agencies are required to develop and maintain an ISO 27001 compliant Information Security Management System (ISMS), under the requirements of the State's CSP. All agencies must also definitively and positively attest to the CSP as part of its Annual Reporting process.**

## **WHAT YOU SHOULD DO**

---

Agencies or cluster Departments have until **31 August 2020** to attest to the CSP in their Annual Report to Cyber Security NSW, including a maturity assessment against the ACSC Essential Eight.

## **EASY TO ENGAGE US**

---

Centium is accredited as an Advanced Supplier for ICT Services (SCM0020).

## HOW CENTIUM CAN HELP

We have a team of experts in ISMS and cybersecurity specialists who have worked with dozens of State Government agencies across NSW since 1985. Not only that, we have also assisted numerous agencies to migrate from the DISP to the CSP in 2019 and to update their ISMSs to meet the new obligations. We have also mapped across the Essential Eight and have many shortcuts and “lessons learnt” to share.

### June – July 2020 INDEPENDENT ASSESSMENT

#### HOW CENTIUM CAN HELP

- Independent maturity assessment against the NSW CSP mandatory requirements
- Independent maturity assessment against the ACSC Essential 8 implementation
- Independent assessment of the ISMS or CSF
- Develop and/or test your Cyber Security Incident Response Plan
- Cyber Security Risk Assessment and remediation plan
- Undertake any other work- e.g. risk treatment, practical consultation to fix the gaps and preparation

### July – August 2020 31 AUG 2020 DEADLINE

#### ATTEST & REPORT

Attestation by  
31 August 2020

Ongoing  
Annual Reporting

## WE CAN HELP YOU TO:

- Review and update your ISMS, based on risk and risk appetite, so that your ISMS is bespoke and fit for purpose yet in line with the CSP
- Identify the gaps which may prevent you from providing a positive CSP attestation by 31 August
- Guide you on how to fix the gaps in the CSP's 25 mandatory requirements
- Enable you to positively attest to the CSP by the deadline
- Prepare your Essential Eight maturity assessment
- Supplement internal audit capabilities in this area
- Conduct a technical assessment of your cybersecurity defences
- Conduct your ISMS independent internal audits per CSP requirements
- Develop and/or test your Cyber Security Incident Response Plan
- Develop and/or test your Business Continuity and ICT Recovery Plans
- Assist with cybersecurity education
